

## Digital Cash Tray LCD101 Monitor

The high quality aluminum housing and the single pane safety glass ensures a noble and high quality appearance even after long term use at the POS. The color design of the powder coated housing as well as the print of the safety glass screen can be adapted according to customer requirements. By the OSD menu the settings of the display can be individually adjusted corresponding to the ambient light conditions. The LCD101 Monitor can be connected with existing computer systems or alternatively operated with other systems.
