

## tbm IR Motion-Sensor MPL031

### Hardware Specification

| List   | Details                       | Remarks |
|--------|-------------------------------|---------|
| MCU    | SAM8RC CPU core               |         |
| Memory | Built-in 528 Bytes            |         |
| RS232  | RS232 Level, DSUB 9 Connector |         |
| Sensor | PIR Sensor                    |         |
| Power  | DC 12V                        |         |

### Function description

- a. When the body is detected, Transfer the 0x01 to the player through the RS232
- b. Playing the contents, Even though sensing, the command is not transferred.
